Dear Valued Tax Client,

CNBC recently reported, "The IRS flagged more than 1 million tax returns for potential identity theft during the 2023 tax season, according to the U.S. Department of the Treasury, signaling that such fraud continues to be a pervasive problem for taxpayers."

Fortunately, there is something you can do about it, which is why we put together this simple, step-by-step guide on how to request an Identity Protection (IP) PIN from the IRS through their website (at IRS.gov). This process helps the IRS ensure that a fraudster cannot file a false tax return in your name.

If you already have an account on the IRS website, getting your PIN only takes a few clicks. However, if you do not have an account yet, you'll first need to verify your identity through a service the government uses called ID.me. An ID.me account will allow you to access your IRS account.

How it works: ID.me will ask for some basic information, such as your name, address, social security number, etc., and will also have you take a picture of the front and back of your driver's license (or other acceptable document) with your smartphone camera. You'll also be asked to provide a "live" image scan of your face. Once accepted as valid, the ID.me system will prompt you to complete the last few steps and you will be able to access your IRS account. You can then request your Identity Protection PIN and the IRS will generate a letter with your new PIN and other important details. We recommend saving this file as a PDF file on your device and printing a hard copy you can store in a safe place. If you are a Claremont Management tax client, please upload a copy of this letter to us using the secure client portal.

With the rise of tax return-related identity theft, we strongly urge all of our clients to take advantage of this IRS program. We're confident that the small investment of your time will be well worth it for the peace of mind it affords you and your family. As always, should you have a question or need assistance, please call us at (847) 398-7010 or email us at savetax@claremontmgmt.com.

Sincerely,

John Cencig and Maria Huja
CLAREMONT MANAGEMENT CORP.

How to get an Identity Protection PIN from the IRS

INSTRUCTIONS FOR IRS (ID.me) ACCOUNT HOLDERS

QUICK LINK

REQUEST AN IRS IDENTITY PROTECTION PIN:

https://www.irs.gov/identity-theft-fraud-scams/get-an-identity-protection-pin

NOTE: If these screen shots are too small, you can download a version with larger ones here:

To request a IRS pin please go www. irs. qov/identity-theft-fraud-scams /get-an-identity-protection-pin Click "Get an IP PIN"

www.irs.gov/identity-theft-fraud-scams/get-an-i...

An Identity Protection PIN (IP PIN) is a six-digit number that prevents someone else from filing a tax return using your Social Security number or Individual Taxpayer Identification Number. The IP PIN is known only to you and the IRS. It helps us verify your identity when you file your electronic or paper tax return. Even though you may not have a filing requirement, an IP PIN still protects your account.

If you are a confirmed victim of tax-related identity theft and we have resolved your tax account issues, we'll mail you a <u>CP01A Notice</u> with your new IP PIN each year.

If you don't already have an IP PIN, you may get an IP PIN as a proactive step to protect yourself from taxrelated identity theft.

If you want to request an IP PIN, please note:

- · You must pass an identity verification process.
- Spouses and dependents are eligible for an IP PIN if they can pass the identity verification process.

How to get an IP PIN

The fastest way to receive an IP PIN is by using the online Get an IP PIN tool. If you wish to get an IP PIN and you don't already have an account on IRS.gov, you must register to validate your identity. The IP PIN tool is generally available starting in mid-January through mid-November. Select the button to get

Get an IP PIN

You will then get a page that pops up with a PIN #, print this page or write down the number to be used for the current year filing.
