We know each family is unique and are dedicated to meeting each family's personal needs by offering flexible options to personalize services for their loved one. With over 150 years of service to the community, and our experience, our clients are assured we will provide the most flexible and comprehensive services available in Naperville, South Naperville and the surrounding communities.

## ***What differentiates your company from your competition?***

Our depth of experience in helping people share memories, express emotions, and find comforting

support is unmatched in our field. In addition, we offer our clients a beautiful setting and a range of options to suit their needs; whether it is burial or cremation, a formal funeral or a more relaxed memorial service. Our goal is always to create a unique and meaningful ceremony that will express the genuine individuality of our client's loved one.

## ***Please describe your typical client.***

Our typical client is anyone who has lost a loved one and needs assistance with putting together a personalized service to help them through the grieving process.

## ***What do you love most about your business?***

Without a doubt, it is the ability to create healing experiences for our clients. We know that in the depth of early grief, many people think it would be 'easier' to just take care of things as simply and as quickly as possible. What they fail to realize is that this ceremony will set the stage for the future by giving them the opportunity to start the healing process. They can never go back and 'do it over'. That's why, it is important to honor their loved one in a way that allows them to look back, even years from now, and be thankful that they did the best they could. Creating a ceremony that calls together the hearts and minds of all who cared for their loved one is a gift to everyone.
